Hey there, I'm Damon Fernandez!

About me

I'm a first year computer science major at Trent University, who is also in the co-op program. I chose to work in tech because of my love of problem solving, working with complex systems and creating software that makes the lives of other people better. Outside of school I also spend a lot of time on personal software projects, game development, and pixel art. I'm currently looking for internships for Fall '24 and am open to working on any collaborative tech projects with fellow devs!

My Resume is here!

Technologies I've worked with:

HTML 5

CSS 3

JavaScript

Git

Java

Python

NPM

Git

GoDaddy
